WELCOME TO EIBA2021 MADRID

Dear EIBA members, colleagues and friends,

It is a great privilege to welcome EIBA members, IB scholars, practitioners, PhD students and other guests to the **47th EIBA Annual Conference** taking place at Complutense University of Madrid (UCM) in Madrid, Spain, on December 10-12, 2021.

The theme of EIBA 2021 is “Firms, Innovation and Location: Reshaping International Business for Sustainable Development in the Post-Pandemic Era”. Firms are active players, and a major channel for investment and innovation to address sustainability; although, the emergence of COVID19 had introduced higher levels of uncertainty in the business environment. The potential reconfiguration of global or regional value chains has been combined with geopolitical tensions, this inviting to rethink the strategies of multinational and the upgrading possibilities for small and medium enterprises.

The EIBA 2021 Conference is being held in the traditional format. Firstly, the conference will be run in presence. Secondly, the structure of the conference will maintain the elements characterizing the traditional conferences (e.g., paper presentations, doctoral events, paper development workshops, panels, etc.) – although some social distancing and COVID-19 protocols must be imposed and guaranteed. An overview of EIBA 2021 Madrid events follows.

On Day 1 (Friday, December 10th) we will feature the usual EIBA pre-conference events – namely two doctoral workshops. The EIBA 2021 Madrid Opening Plenary Session will feature a panel of distinguished scholars, with discussions reflecting the conference theme. After the plenary, enjoy the Welcome Reception at the Museo del Traje.

Day 2 (Saturday, December 11th) and Day 3 (Sunday, December 12th) comprises the traditional parallel sessions in which more than 300 accepted paper submissions to EIBA 2021 Madrid will be presented, covering a wide range of topics within the 15 tracks of the conference. Over 90 posters were also accepted (to be presented during the extended lunch-time slot). There are also panel sessions on the program covering a variety of IB topics, an EIBA Doctoral Events Anniversary Panel (organized to celebrate the 10th year of the Danny Van Den Bulcke Doctoral Symposium and the 35th year of the John H. Dunning Doctoral Tutorial), and the yearly book launch session of the Progress in International Business Research (PIBR) book series. The EIBA Fellows Plenary will take place at noon, and the EIBA 2021 Closing Plenary will adopt The Oxford Union Style to discuss the motion: MNEs will make meaningful contributions to post-Pandemic sustainable development.

The EIBA 2021 Award Ceremony will be held during the Gala Dinner – where the best paper prizes and their authors (among other awards) will be announced and acknowledged by EIBA sponsors.

Some opportunities for informal networking during the EIBA 2021 Conference are being organized, such as scheduled coffee and lunch breaks where ideas can be exchanged, and participants can relax & socialize in between sessions.

On behalf of the EIBA Chairs & Board, all EIBA 2021 event organizers and contributors, along with the entire EIBA 2021 Madrid local team and student assistants at Complutense University of Madrid – we are looking forward to sharing the experience of hosting the 47th EIBA Annual Conference – and to being together in person again!

WELCOME TO THE COMPLUTENSE UNIVERSITY OF MADRID

Dear participants,

We are pleased to welcome you at to the 47th Annual Conference of the European International Business Academy. We are happy to host this important event in our University.

The Complutense University is the largest and one of the oldest educational institutions in Spain. It was founded by Cardinal Cisneros on 1499 and over 70,000 students chose to study at our university during this academic year. It exhibits excellent research and high-quality teaching standards being well known nationally and internationally. The history of the Complutense University has been marked by great names of science and letters. Seven of the eight Spanish Nobel Prize winners taught or studied at our University, respectively:

- Severo Ochoa and Santiago Ramón y Cajal (in the Faculty of Medicine, where the Conference will be held) and José Echegaray (the first Spanish to win the prize).
- Jacinto Benavente, Vicente Aleixandre, Camilo José Cela and Mario Vargas Llosa (all of them Nobel Prize in Literature).

But also other students from the Complutense University have been notable figures in the arts, sciences and philosophy, such as Antonio Machado, Federico García Lorca, Gregorio Marañón, Miguel de Unamuno and José Ortega y Gasset.

The Complutense University has been configuring itself throughout years as a benchmark institution at a national and international level, occupying relevant positions in the rankings of academic and research excellence, employability and sustainability.

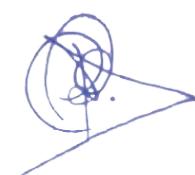

The Complutense University has two campuses:

- Moncloa Campus, in the city centre of Madrid. The Conference will be held there, more specifically in the Faculty of Medicine.
- Somosaguas Campus, in the western outskirts of Madrid, where The Faculty of Economics and Business is located, which recently commemorated its 75th anniversary. The Faculty of Economics and Business was founded in 1944 and is the oldest Faculty of Economics in Spain, with nearly 400 professors and more than 5000 students.

In my current position as Dean of the Faculty of Economics and Business I am able to confirm that we are particularly proud to have the opportunity this year to discuss the topic "Firms, Innovation and Location: Reshaping International Business for Sustainable Development in the Post-Pandemic Era". In fact, our Faculty is highly committed to the social, cultural and economic environment, as well as a declared international vocation.

Thank you for attending this Conference.

We wish you a productive and pleasant time with us.

SOCIAL PROGRAMME

THE ROYAL PALACE OF MADRID SPONSORED BY PATRIMONIO NACIONAL

The Royal Palace of Madrid is the largest in Western Europe and one of the largest in the world. With over 135,000 square meters and 3,418 rooms, it has witnessed centuries of Spanish history. It is one of the few official seat of a Head of State that is open to the public. Almost 2 million visitors come every year to discover its rooms, works of art and treasures that are unique in the world.

We'll have 4 guided free tours in English for groups of 10 people each one.

- Friday, 10 December at 10:00 (two groups)
- Sunday, 12 December at 10:00 (two groups)

ALFONSO XIII ROYAL BOTANICAL GARDEN

The Alfonso XIII Royal Botanical Garden belongs to the Complutense University of Madrid. The garden is home to more than eight hundred botanical species with the purpose of providing education, dissemination, conservation and research in botany and zoology.

A long avenue runs through the Centre of the garden where large, white flowerbeds display typical species of the Mediterranean climate, which is predominant in the Iberian Peninsula.

UCM Eco-Sustainable Contemporary Art Exhibit

The exhibition can be visited for free in the Biodiversity Interpretation Centre (CiBi) until 19 December 2021, from Monday to Friday from 9:00 to 18:00.

EXHIBITION: THE DIVINE COMEDY. INSPIRATION AND REASON

The Complutense University of Madrid has organized this exhibition to mark the 700th anniversary of the death of the great poet Dante Alighieri, author of one of the most important books in world literature. The University has wanted to approach this work from the inside, investigating its bibliographic collections and betting on contemporary artistic reading that allows incorporating creative proposals in a significant space such as the Complutense Art Center.

It can be visited freely from 1st October to 12th December, 2021.

Schedule: Tuesday to Saturday from 10:00 to 18:45| Sundays and holidays from 10:00 to 15:00. Closed Monday.

c arte c (Centro de Arte Complutense), Avda. Juan de Herrera, 2. (ground floor of the Museo del Traje building), 28040 - Madrid.

EIBA 2022 - OSLO ANNOUNCEMENT

WALKING THE TALK? TRANSITIONING TOWARDS A SUSTAINABLE WORLD

Across the globe concerns escalate about the effects of greenhouse gas emissions on global climate conditions, implications on global trade from pandemics, and the destruction of ecosystems from the exploitation of limited and non-replaceable global resources. Politicians and businesses alike agree that something must be done, the question is what, how, and when? What should firms do to reduce their carbon footprint while continuing to secure jobs and profit? How can actors reduce waste and secure a better use and reapplication of resources to protect the sustainability of ecosystems, and when should firms make decisions to transform their businesses given the uncertainty of markets as well as the lack of clear guidance from global institutions? In this conference we raise the question: Are we walking the talk? What questions should be raised and researched to guide societies towards a sustainable economy? Can international businesses facilitate rather than impede this change?
